	Management Commitment	FOOD SAFETY POLICY	South Dakota Soybean Processors, LLC 100 Caspian Ave Volga, SD 57071
	Section #		Date of Revision
	2.1.1	Food Safety and Quality Manual	10/19/23

From its beginning, South Dakota Soybean Processors' (SDSP) goal has been to provide high quality soybean meal and oil at a competitive price while rewarding our farmer members with value added payments. This statement remains true as we expand product selection while ensuring safe quality products.

SDSP's commitment to food/feed safety and quality is strong throughout the facility beginning with our Food/Feed Safety Team. We continually strive to improve our HACCP, PC's, SQF Food Safety, and feed safety programs for the manufacturing of soy based products.

Our employees are crucial to the success of our food safety and quality program and understand the purpose of our food and feed safety policies including HACCP, PC's, SQF, and feed safety as well as management's commitment. Training and guidance from the Food/Feed Safety Team prepares employees to fully implement our HACCP, PC's, SQF, and feed safety programs.

Senior Site Management commits resources and supports our food/feed safety and quality programs and emphasizes the importance of continual improvement and food safety culture. Quarterly management reviews are conducted to analyze and improve upon established objectives in accordance with food/feed safety and quality.

Outstanding customer service is a necessity in our business, and we provide safe food and feed based on statutory, regulatory, and our customer requirements as well as our concern for the safety and wellbeing of the consumer of our products.
